

Construction Update for the Week of March 19

The current road detour, shown in the map below, will remain in effect for the week of March 19th as the new water main installation begins. Please note that there is a planned water shutdown Tuesday, March 20 from 9:00 – 11:00 am. If your property will be impacted, you will be directly notified by the Village.

Tree removal will also begin on Main Street between Algonquin Road and Route 31 next week. Any impacted trees are marked with white and orange ribbons. These trees need to be removed to construct the Old Town planned improvements, but new trees will be planted as part of the streetscape work.

Detour maps and construction updates can be found on the project website at www.oldtownalgonquin.org. You can contact the construction team or attend the next

Coffee with the Contractor on March 23 from 9:00 – 10:00 am at the Historic Village Hall if you have any questions or concerns.

As a reminder, please use caution when driving through this area and plan for potential traffic delays.
