

## Construction Update for the Week of July 16

Main Street, north of Washington Street, will remain **one-way only northbound** to accommodate the removal and replacement of the bridge over Crystal Creek. Local northbound traffic on Main Street will use a temporary ramp next to Crystal Creek to access Harrison Street. Businesses are encouraged to contact their suppliers to find delivery alternatives as truck traffic is not allowed in this area. Two-way local traffic is allowed south of Washington Street.

There are just over two weeks remaining for the generous supporters who donated to previous downtown projects to reclaim their engraved brick pavers. If you are interested in reclaiming your engraved brick paver, please do so by the July 31 deadline. Please remind your neighbors about the pavers and the upcoming deadline. For more information about this process and who to contact visit [oldtownalgonquin.org](http://oldtownalgonquin.org).

For detour maps and construction updates, visit the project website at [oldtownalgonquin.org](http://oldtownalgonquin.org). You are invited to contact the construction team at any time or attend the next **Coffee with the Contractor** on July 27 from 9:00 am - 10:00 am at **St. John's Lutheran Church, 300 Jefferson Street**, to ask questions or discuss details of the project.
