

Construction Update for the Week of June 4

Please pardon our dust, as saw cutting of the pavement will occur on Monday and Tuesday. This work will allow construction crews to access the water main and begin that phase of construction on Wednesday.

Construction crews have shifted the open travel lane and parking to the west side of Main Street to accommodate the water main work. Main Street from Washington Street north to Algonquin Road will continue to function as a **one-way only southbound** street through this phase of construction. Vehicles traveling northbound on Main Street are being detoured at Washington Street to Harrison Street.

Drivers are urged to use caution while traveling in this area to ensure the safety of workers and pedestrians.

You can view construction progress on the [Old Town Algonquin](#) website, which features a time lapse camera that captured some of the sanitary sewer construction work that was completed on a section of the corridor.

For detour maps and construction updates visit the project website at www.oldtownalgonquin.org. You can contact the construction team at any time or attend the next **Coffee with the Contractor** on June 15 from 9:00 am - 10:00 am if you have any questions or concerns. Location to be announced in the next update.
