

Construction Update for the Week of March 12

On Monday, March 12th crews will be connecting the sanitary sewer at Route 31 and Main Street. Flaggers will be on site all day to direct traffic safely around construction. Anyone wishing to access homes or businesses on south Main Street should use Algonquin Road.

Work will continue on the sanitary sewer connections throughout the remainder of the week, but we are not anticipating any traffic impacts at the intersection after Monday. The current road detour, shown in the map below, is still in affect for the area.

Detour maps and construction updates can be found on the project website at www.oldtownalgonquin.org. You can contact the construction team or attend the next Coffee with the Contract on March 23th from 9:00 am -10:00 am at Historic Village Hall if you have any questions or concerns.

As a reminder, please use caution when driving through this area and plan for potential traffic delays.
