

Construction Update for the Week of March 26

On Tuesday, construction will be suspended as crews will be receiving safety training, which is a standard practice for construction projects. It is the project team's goal to provide the safest construction environment possible for the Village, residents, businesses and construction crews. Construction work on Old Town Algonquin will continue the rest of the week with the road detour remaining in effect.

We are pleased to announce that crews have completed the tree removal process needed for construction. New trees will be planted as part of the planned streetscape work once construction is complete.

Detour maps and construction updates can be found on the project website at www.OLDTOWNALGONQUIN.ORG. You can contact the construction team or attend the next **Coffee with the Contractor** on April 6 from 9:00 – 10:00 am at the Historic Village Hall if you have any questions or concerns.
