

Construction Update for the Week of May 7

Traffic was shifted to allow **one-way only southbound access on Main Street** as crews began the next phase of construction. Vehicles traveling northbound on Main Street are being detoured at Washington Street to Harrison Street. Drivers are urged to use caution while traveling in this area to ensure the safety of workers and pedestrians.

Please pardon our dust as this phase of construction will include the installation of new sanitary sewer lines north of Washington Street. This work will last approximately two weeks and we thank you for your patience.

For detour maps and construction updates visit the project website at www.oldtownalgonquin.org. You can contact the construction team at any time or attend the next **Coffee with the Contractor** on May 18 from 9:00 am -10:00 am at Historic Village Hall if you have any questions or concerns.
