

Construction Update for the Week of October 28

On Monday, crews will head out to resurface the roadway on North Main Street. The new road surface will provide a smooth and safer ride for those traveling on Main Street. Weather permitting, this work is expected to be complete by early next week.

The new steel archway will be installed over the bridge on Main Street in the coming weeks. We will provide more details once that information is available.

For more information and the latest detour map, visit the [Old Town project website](#).
