

Construction Update for the Week of December 10

Original Main Street

New Main Street

Brick pavers have been installed to create new and attractive sidewalks along Main Street north of Washington Street. Crews will continue installing this pavers south of Washington Street to the Bypass this week.

Crews will also install electrical fixtures along Main Street.

Detour

The current one-way northbound detour remains in effect between the Bypass and Algonquin Road. We encourage businesses owners and employees to utilize the village owned parking lot located at Washington and Harrison streets so the visitors, shoppers and diners can utilize the parking spaces on Main Street.

LEGEND:

-  FULL CLOSURE
