

Construction Update for the Week of February 25

On Monday, crews will begin removing the bridge decking on the structure that carries Main Street over Crystal Creek. The decking is the roadway portion of the bridge. This work begins as crews continue relocating the AT&T utility lines in that area.

Workers will also begin advance work on the north section of Main Street this week. Crews will be out locating utilities in the trenches along Main Street between Algonquin Road and Riverview Drive. This work will require restricting access to local traffic only.

Please share the detour map, which can be found on the [project website](#), with your customers, employees and delivery drivers. As a reminder, the village parking lot at Harrison and Washington streets is available for workers, businesses and visitors.

For more information and the latest detour map, visit the [Old Town project website](#).
