

## Construction Update: August 29

*Regrading the connection to the Trail*

*New ramp*

This week, trail users were directed back onto the new ramp! Crews also finished installing the final pieces of the block retaining wall, regraded the slope along the bridge sides and removed the temporary ramp.

Next week, the construction team will prepare the bridge deck (surface). Crews will also focus on other parts of the project, including:

- Beginning electrical preparation for installing the bollard lamps along part of the Trail (visit the [project website](#) to learn more about the lamps).
- Installing brick pavers near the new pergola.

Thank you for your patience and cooperation as we near the end of construction!

**Construction Detour:**

**The construction detour remains in place until construction is complete.** The detour routes users to La Fox River Drive onto local streets where they can safely reconnect to the Prairie Trail through Towne Park. Please use the free, public parking lots indicated on the map. For safety purposes, we kindly ask that you walk your bicycle while in the construction zone.

**For more information and detour map, visit the  
Old Town project website.**

If you have questions, please contact Dan Crosson at 847-823-0500.
