

Construction Update for the Week of November 11

Last week, construction crews completed a substantial amount of mainline sewer installations on North Harrison Street.

This week, expect more sewer and water main work! Crews will test the new sewer between Edwards Street and the 500 block of North Harrison Street. Upon testing, the existing sanitary services will be transferred to the new mainline sewer. Residents will be notified in advance of any driveway access restrictions due to the sanitary service connections. Access will be restored by the end of each work day.

Also this week, Edwards Street will close to vehicular traffic between North Harrison and North Main streets while crews replace the water main. Businesses along this street will remain open during construction, and patrons should utilize parking along North Harrison Street as needed. This work is expected to be complete in one week.

A special notice for properties along North Harrison Street:

- Properties along North Harrison Street between Front and Edwards streets, should continue to access their property on North Harrison Street off Algonquin Road or Front Street. This also applies to the townhomes at the intersection of North Harrison Street and Edwards Street.
- Townhomes located at the intersection of North Harrison and Edwards Streets, should use the entrance on North Harrison Street for access. The existing entrance onto Edwards Street will be closed for water main replacement work.

Over the next few weeks, residents between Sunny Drive and Edwards Street should be aware that work associated with service connections may impact their ability to exit their properties to the south and should plan accordingly based on where the contractor is working. All other traffic in this area should continue to utilize the detour route.

*Fox 14 Marina is open during construction and accessible from the north, off Blackhawk Trail.

Detour Alert

The Stage 2 detour is expected to remain in place for several weeks. North Riverview Drive between North Main and Park streets will be closed as part of the stage 2 detour. Access to the residents and businesses within the work zone will be maintained.

For more information and the latest detour map, visit the [Old Town project website](#).
