

## Construction Update: March 13

**This week**, crews worked with ComEd and Nicor to install services at the new lift station and control building. The contractor anticipates that installation will be completed next week.

**Over the next few weeks**, the contractor will complete the electrical and \*SCADA work before the lift station and control building are started up and put into service.

*\*SCADA is a system that will allow the Village to collect data, monitor and control the equipment remotely.*

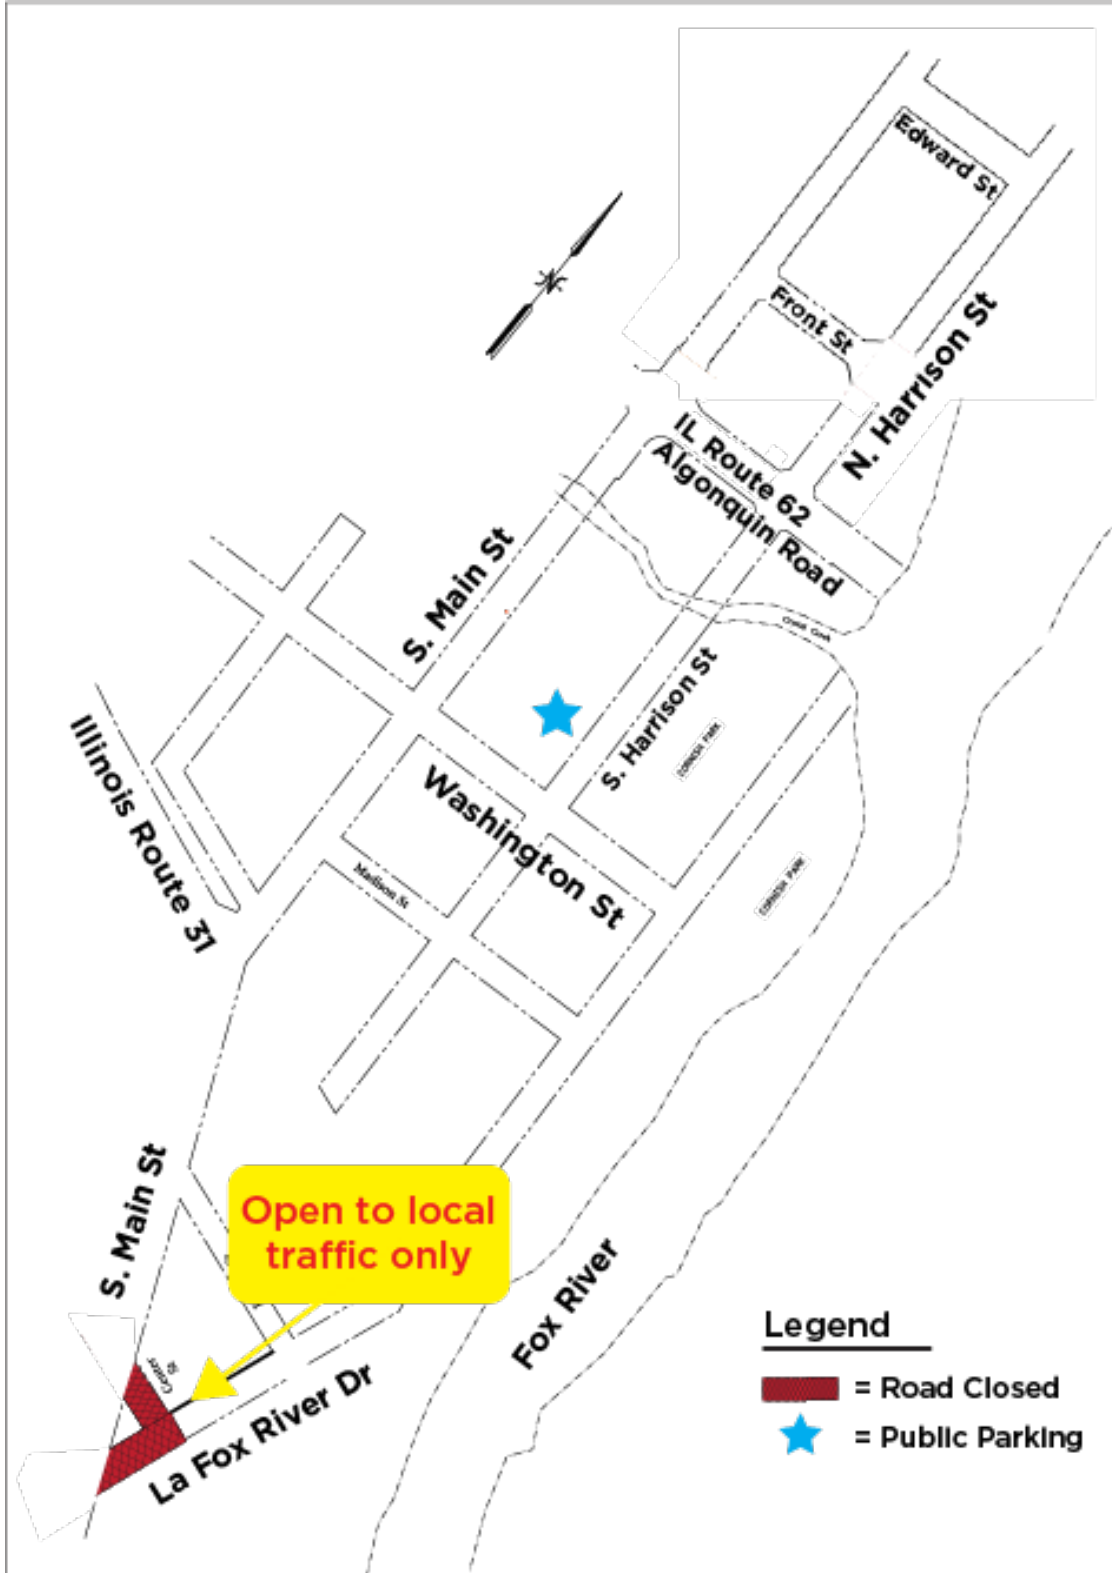

---

### Detours and Closures

La Fox River Drive between RT 31 and Center Street as well as Center Street north of La Fox River Drive **is open to local traffic only.**

Please refer to the map below to detour around the closures. Thank you again for your continued cooperation and patience.
