

## Construction Update: March 27

**This week**, crews worked with Nicor and ComEd to complete utility connections for the control building.

Over the next few weeks, crews will finalize the electrical and \*SCADA\* system for the lift station, as well as install an odor control unit at the lift station. The contractor anticipates being able to start operations at the lift station and generator building in just a couple of weeks.

*\*SCADA is a supervisory control and data acquisition system that will allow the Village to collect data, monitor and control the equipment remotely.*

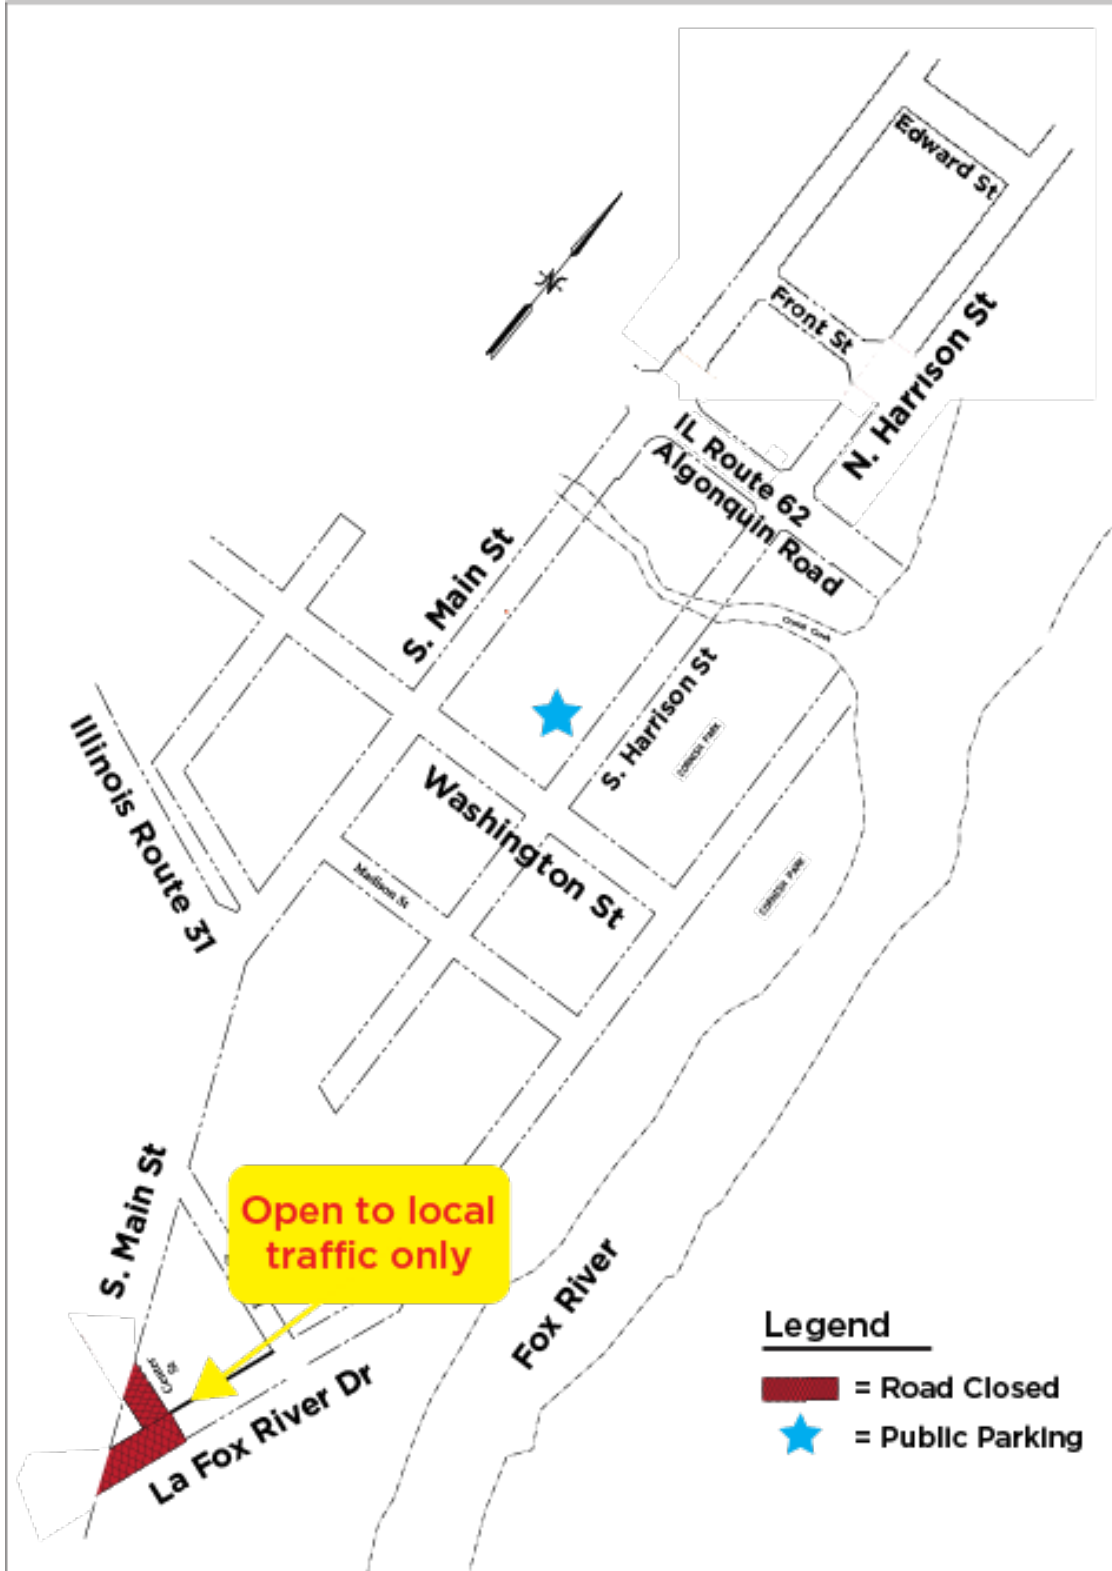

---

### Detours and Closures

La Fox River Drive between Route 31 and Center Street, as well as Center Street north of La Fox River Drive **is open to local traffic only**.

Please refer to the map below to detour around the closures. Thank you again for your continued cooperation and patience.
