

## Construction Update July 24, 2024

**Stage One of the Washington and Harrison Streetscape Project is complete!**

The contractor completed the brick paver sidewalk installation on Washington Street from Main Street to Jefferson Street officially finishing the first phase on work.

*Completion of phase one paver installation!*

### **Stage Two Update:**

On Harrison Street, from Algonquin Road (IL Route 62) to Crystal Creek, the contractor placed concrete, installed conduit, and set handholes at tree grate locations for the new proposed lighting.

On Harrison Street, from Crystal Creek to Washington Street, the contractor completed storm sewer improvements including various pipe installations and setting catch basins and inlets.

The contractor also began storm sewer improvements for the Harrison Street parking lot.

### **Stage Two Upcoming Work:**

This week on both sides of Harrison Street, from Algonquin Road (IL Route 62) to Crystal Creek, the contractor will place aggregate stone base and formwork for the new concrete sidewalk and concrete base for sidewalk pavers.

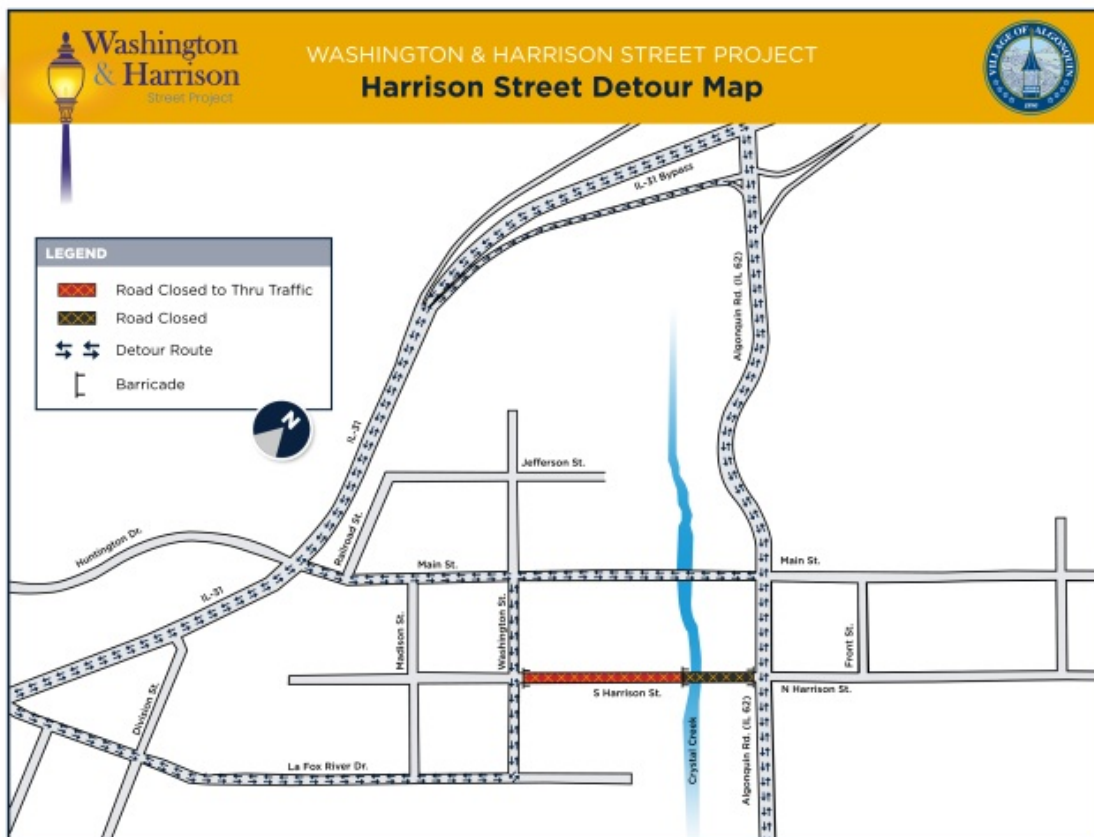

*Electrical conduit installation*

*Placing concrete for light poles*

As a reminder, the detour shown below is in effect until further notice.
